

Privacy...
it's a Major Part
of your Business!

Did You Know

With the National Do-Not-Call List now in effect and many other states having some type of Do-Not-Call legislation, ***screening your calling lists is no longer a nuisance...it is a necessity.***

We all know that privacy laws are continuously changing. Keeping up with the changes can be very difficult to do. Let CAS manage the process for you.

One Source For Privacy Screening

CAS houses the National FTC "Do Not Call" file as well as all applicable state files and the DMA "Do Not Call" files in a comprehensive database that is now up to over 60,000,000 individuals and growing. CAS also houses individual privacy advocate files. CAS can help in the areas of "Do-Not-Mail" as well as "Deceased" processing, which eliminates individuals who appear on the national deceased database maintained by the United States Government.

CAS receives continuous updates from all affected governing agencies and privacy groups, and as new files become available we subscribe to them as well.

CAS Offers The Following Suppression Services

- FTC "Do Not Call"
- DMA "Do Not Call"
- State Specific " Do Not Call" Files
- Privacy Advocate Files
- CAS Proprietary "Do Not Call" Files
- DMA "Do Not Mail"
- Deceased File Suppression
- Undeliverable Address Suppression
