The NCMS FarmIndex is a multi-sourced nationwide file for reaching the agricultural market. Now you can reach individual and business owned farm operators, from the small farmer to the large multi-crop farm enterprise. This is a major resource to reach the highly responsive agricultural community. Seekers of quality products, new innovations, and value offers. On-going data hygiene ensures that you will receive the most accurate lists available.

With the current spotlight on the agriculture segment, *FarmIndex* offers mailers the opportunity to reach this highly productive market with the best available data. You can select by both farm and household demographics. The B to B mailer can select by SIC code, number of acres, size of livestock herds, crop and much more. If you are a B to C mailer income, age, lifestyle and more are available.

Other Selections include:

- Crop Segment
- Number of Acres
- Crop by Name
- Type of Livestock
- Number of Head
- Owner vs. Operator
