

List Managers...

It's Time to Get Connected!

CAS Can Deliver Ready, Willing, and Able List Buyers to You.

When you use our Turbo-Marketing Network your lists will be available for on-line list ordering over the web throughout our affiliate network.

CAS' Turbo-Marketing Network is the easiest way for you to increase list revenues. Just send CAS your lists, we will prepare and secure your files at our corporate location and add them to the network.* Once added your files immediately become available to participating Turbo-Marketing affiliates. As buyers visit the websites of our affiliates your files will be there for the "order taking".

This is a true "pay for performance" model. It costs you nothing to get started, you only pay a fee when an order is placed. Being a member of the Turbo-Marketing Network not only gives your lists needed exposure and increased revenue opportunities, but it also provides you with a method for lowering your operational and marketing expenses.

If you're looking for *even more* revenue opportunities your organization can become a Turbo-Marketing Network affiliate as well. CAS will set you up as a Private Label Turbo site and you can begin selling not only your own list management files, but gain incremental revenue from selling other affiliate's files.

However you look at it CAS can help put additional revenue in your pocket. To find out more about our Turbo-Marketing Network and our affiliate partners, please call 1-800-482-7705. Customized revenue sharing and subscription plans are also available.
